'We Did It!' Says Article By Principal Roland Petrat

"We Did It at Steele School and It Works" is the title of an article by Roland K. Petrat, principal of Steele Elementary School, which appears in this month's issue of The Instructor magazine.

The education magazine features a story of the student advisory council at Steele school.

Premise Given
According to the article, the advisory council was set up on the premise, "School is a place for children to make mistakes and to learn from these mistakes." A problem-solving approach offers more chance for critical thinking and building responsibility than a set of rules adopted by the teacher, Petrat said.

Two students were elected from each classroom from the fourth through eighth grades to serve on the council. The group met from time to time as school problems arose.

Among problems solved by student action, guided by administrators, were playground

safety, cafeteria organization, lunch and noon hour passes, clean campus campaign, assemblies, bicycle safety, setting up clubs and intramural activities, and setting behavior standards.

Good Outcome
Petrat believes that the outcome of the council brought more responsibility for the youngsters and better self-discipline. Parents, too, took a more active interest, he said.

"We found that this worked for us because we believed in our children," he said in the article. "We also saw the school as their experimental laboratory, an experiment in a life process where we solved problems together. Finished? Oh no! We'll always be solving new problems as horizons enlarge. What does one do for recreation on a satellite?"

PATENT GRANTED

The first patent for a refrigerating machine was granted in 1851 to Dr. John Gorie, of Apalachicola, Fla., according to patent records.

Luncheon to Raise Funds For Charity

The Torrance chapter of the Women of the Moose will present a charity luncheon, open to the public, at the Moose hall, 1744 W. Carson St., next Wednesday starting at 11 a.m., according to Edna Harbison, senior regent.

Proceeds from the luncheon, prepared by the homemaking and child care committee, will be used by the Women of the Moose for local and national charitable activities. A donation of 75 cents for adults and 50 cents for children, according to Mary Platt, publicity chairman of the chapter, will present the donor with a luncheon consisting of spaghetti, cole slaw, cherry cobbler and coffee or tea.

Tomorrow night, starting at 8 p.m., the Women of the Moose will join the men of the Torrance Moose lodge in a joint meeting of the two organizations.

AWARD WINNER . . . Gary Rickard, son of Mr. and Mrs. Norman Rickard, 1577 W. 210th St., recently received the God and Country Scouting Award from the Rev. Morgan Gates of the First Baptist Church. An Eagle Scout, Rickard is also secretary of Explorer Post 315-X, member of the Order of Arrow, Torrance Pool Leaders' Corps, Torrance Canoe Club, and NRA.

STATE TAX DATA ALSO REQUESTED

The poor taxpayer hasn't got a chance. Employers who are now preparing Forms W-2 for the U. S. Internal Revenue Service, are also required to prepare Forms 599 for the California Franchise Tax Board, according to Robert C. Kirkwood, the board chairman. Employers must report to the State for each single employee who was paid \$2000 or more and each married employee who was paid \$3500 or more during 1957. If the employee is a resident of California, a Form 599 must be filed even though the services were performed outside California. Copies of Federal Form W-2 may be used in place of State Form 599 if it is clearly indicated whether the employee is single or married, and if the copies are accompanied by Form 596. These must be filed with the Franchise Tax Board on or before Saturday, Feb. 15.
